

# STANDARDS OF ACCREDITATION AND IMPLEMENTING REGULATIONS

Kathy Bieschke, PhD, Chair

Cindy Juntunen, PhD, Commissioner

# Primary Learning Objectives

Attendees will be able to:

- list key 2015 CoA activities , including the online self-study submission system.
- explain the steps and timeline for the implementation of the Standards of Accreditation (SoA).
- identify recently revised Implementing Regulations for the SoA, including those that are currently being developed.
- identify strategies for programs implementing recent changes to the SoA in their own program.

# **The SoA will be effective January 1, 2017: All programs must be compliant**

- Review of development and current status
- Implementation steps
- Training resources

# SoA – Development 2012-2016

- 3 year development process
  - *Multistage public comment to identify priorities & areas of focus (Spring, 2012 – Summer, 2013)*
  - *Draft developed & revised based on public comment & legal review (Summer, 2013 – Fall, 2014)*
- Final document adopted
  - *by CoA (October, 2014) & APA governance (Fall, 2014 – Spring, 2015)*
- SoA effective on January 1, 2017
  - *Inaugural group = programs with 2017 SV (SS due Sept 1, 2016)*

# Supporting Documents – Accreditation Operating Procedures (AOP)

- Revised AOP approved in February, 2015
- Effective **January 1, 2017**
- Key changes:
  - Programs can be accredited for up to 10 years
  - “Intent to apply” and contingent accreditation for doctoral programs
  - Two (vs. 3) review cycles for internships and postdocs
  - Clearer indication that site visitor selection is responsibility of CoA

# Supporting Documents – Implementing Regulations (IRs)

- All implementing regulations reviewed and revised
- Effective **January 1, 2017**
- IRs:
  - Separated by program level – doctoral, internship and post-doctoral residency
  - Organized by Standard
- Some IRs have been:
  - Substantially revised
  - Integrated into other IRs (e.g., Adherence to the Principle of Broad and General Preparation)
  - Removed

# Supporting Documents – Updated Implementing Regulations (IRs) – Section C

- Intent to apply (one for each level)
- Accredited, on contingency (one for each level)
- Discipline-specific knowledge (doctoral only)
- Faculty qualifications (doctoral only)
- Direct observation (one for each level)
- Profession-wide competencies (one for each level)

# Discipline Specific Knowledge

## II: Aims, Competencies, Curriculum, and Outcomes

### B. 1. Discipline-Specific Knowledge

- Represents the requisite core knowledge of psychology one must have to attain profession-wide competencies.
- DSK serves as a cornerstone for the establishment of identity in and orientation to HSP.

See IR 9 C-7 D

## II: Aims, Competencies, Curriculum, and Outcomes

### B. 1. Discipline-Specific Knowledge

### Category 1

- **History and Systems of Psychology**
- **Basic content areas in scientific psychology**
  - Affective Aspects of Behavior
  - Biological Aspects of Behavior
  - Cognitive Aspects of Behavior
  - Developmental Aspects of Behavior
  - Social Aspects of Behavior

## II: Aims, Competencies, Curriculum, and Outcomes

### B. 1. Discipline-Specific Knowledge

### Category 1

#### **Using Knowledge Acquired Prior to Grad Program**

- Program must describe the standardized assessment method(s) used as part of the selection process to demonstrate student knowledge and minimum criteria for student knowledge
- Program is responsible for documenting relevance, quality/rigor, currency, standardization, and fairness of their evaluation methods (including standardized tests) and minimum criteria
- Exceptions – may be appropriate in rare cases

## II: Aims, Competencies, Curriculum, and Outcomes

### B. 1. Discipline-Specific Knowledge

### Category 2

- Advanced Integrative Knowledge of Basic Discipline-Specific Content Areas (*areas identified in Category 1*)
- Research Methods
- Quantitative Methods
- Psychometrics

## II: Aims, Competencies, Curriculum, and Outcomes

### B. 1. Discipline-Specific Knowledge

### Category 2

- Advanced Integrative Knowledge of Basic Discipline-Specific Content Areas (*areas identified in Category 1*)
  - *Integration of two basic content areas*  
**OR**
  - *Basic coverage in two areas and integration across those two areas*

## II: Aims, Competencies, Curriculum, and Outcomes

### B. 1. Discipline-Specific Knowledge

#### Graduate-Level Knowledge

#### **Curriculum plan should be at the graduate level and**

- Include primary source materials (including original empirical work).
- Emphasize critical thinking and communication at an advanced level.
- Facilitate integration of discipline-specific knowledge with the program's substantive area(s) of practice.

# Small Group Discussions

- What challenges and opportunities do the requirements for discipline-specific knowledge present for your program?
- In regard to providing trainees with integrative knowledge, discuss with the group alternatives for adhering to this requirement.
- <http://www.apa.org/ed/accreditation/section-c-soa.pdf> (IR C-7D)

# Direct Observation

# Direct Observation

- Direct observation provides essential information regarding development of competencies and quality of the services.
- Direct observation includes in-person observation, live video streaming, or video recording.
- Audio recording alone is not sufficient to meet the requirements of direct observation.
- Programs must verify that direct observation is conducted by the immediate supervisor responsible for the activity being evaluated.

# Small Group Discussions

- How do you envision meeting the expectations for direct observation within your program?
- What challenges do you expect to encounter and how might these be overcome?
- <http://www.apa.org/ed/accreditation/section-c-soa.pdf> (IR C-14d)

## IV: Faculty

### B. Faculty Qualifications and Role Modeling

#### Qualifications

Faculty members have multiple roles within a program. For each faculty member, the program is responsible for ensuring appropriate:

- Training
- Current expertise
- Effectiveness in each role they fulfill in the program

## IV: Faculty

### IR C-32: Establishing relevant and current expertise

#### **Evidence of Faculty Qualifications**

- Board certification
- Formal or other post-doctoral training
- Systematic study
- Ongoing professional development
- Research productivity
- Clinical competence
- Professional credential
- Academic degree/area of study
- Respecialization

## IV: Faculty

### B. Faculty Qualifications and Role Modeling

#### Additional Professional Characteristics

#### Core Faculty

- Primary professional employment (50% or more)
- Must be identified with the program and centrally involved in development, decision making and student training.
- Defined by conducting specific activities for the program
- Excludes other activities not directly related to the program from consideration

## IV: Faculty

### B. Faculty Qualifications and Role Modeling

#### **Core Faculty**

- Function as an integral part of the academic unit
- Are sufficient in number
- Have appropriate theoretical perspectives and academic and applied experiences
- Demonstrate competence and have recognized credentials
- Available as appropriate role models for students

## IV: Faculty

### B. Faculty Qualifications and Role Modeling

**Associated  
and Adjunct**

- Not centrally involved in program development or decision making.
- Can make a substantial contribution and take on some of the tasks associated with core faculty.
- Hired on ad hoc basis.

# Small Group Discussions

In your program, how will you establish that the faculty are appropriately qualified for the roles that they hold?

<http://www.apa.org/ed/accreditation/section-c-soa.pdf> (IR C-23D)

# Profession Wide Competencies

## II: Aims, Competencies, Curriculum, and Outcomes

### B. 1. Profession-Wide Competencies

All trainees are expected to develop PWCs as part of their preparation for practice in health service psychology (HSP)

Programs may use a variety of methods to ensure trainee competence; however, all programs must adhere to the following training requirements at a minimum:

- Consistency with the professional value of individual and cultural diversity
- Consistency with the existing and evolving body of general knowledge and methods in the science and practice of

psychology

## II: Aims, Competencies, Curriculum, and Outcomes

### B. 1. Profession-Wide Competencies

Programs may use a variety of methods to ensure trainee competence; however, all programs must adhere to the following training requirements at a minimum:

- Level-appropriate training
- Level-appropriate expectations
- Evaluation of trainee competence

## II: Aims, Competencies, Curriculum, and Outcomes

### B. 1. Profession-Wide Competencies

- i. Research
- ii. Ethical and Legal Standards
- iii. Individual and Cultural Diversity
- iv. Professional Values, Attitudes and Behaviors
- v. Communication and interpersonal Skills
- vi. Assessment
- vii. Intervention
- viii. Supervision
- ix. Consultation and Interprofessional/ Interdisciplinary Skills

## II: Aims, Competencies, Curriculum, and Outcomes

### C. Program-Specific Elements – Program-Specific Competencies and Related Curriculum (Optional)

- Programs may provide program-specific competencies (as appropriate).
- Program specific competencies must be consistent with:
  - programmatic aim(s)
  - ethics of the profession

## II: Aims, Competencies, Training, and Outcomes

### Describing Aims, Competencies, and Outcomes

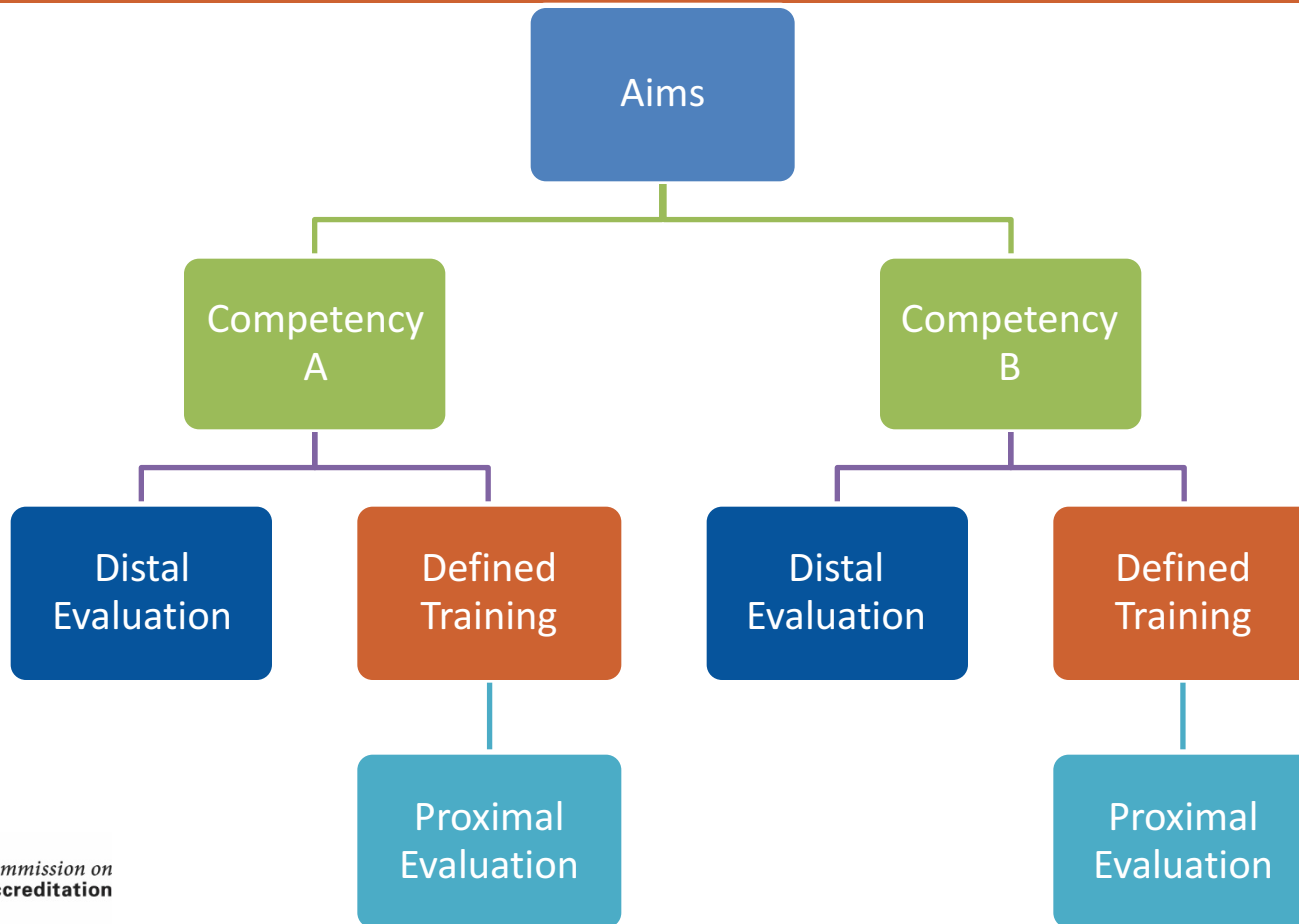

\* Note that defined training may reflect more than one competency.

## II: Aims, Competencies, Training, and Outcomes

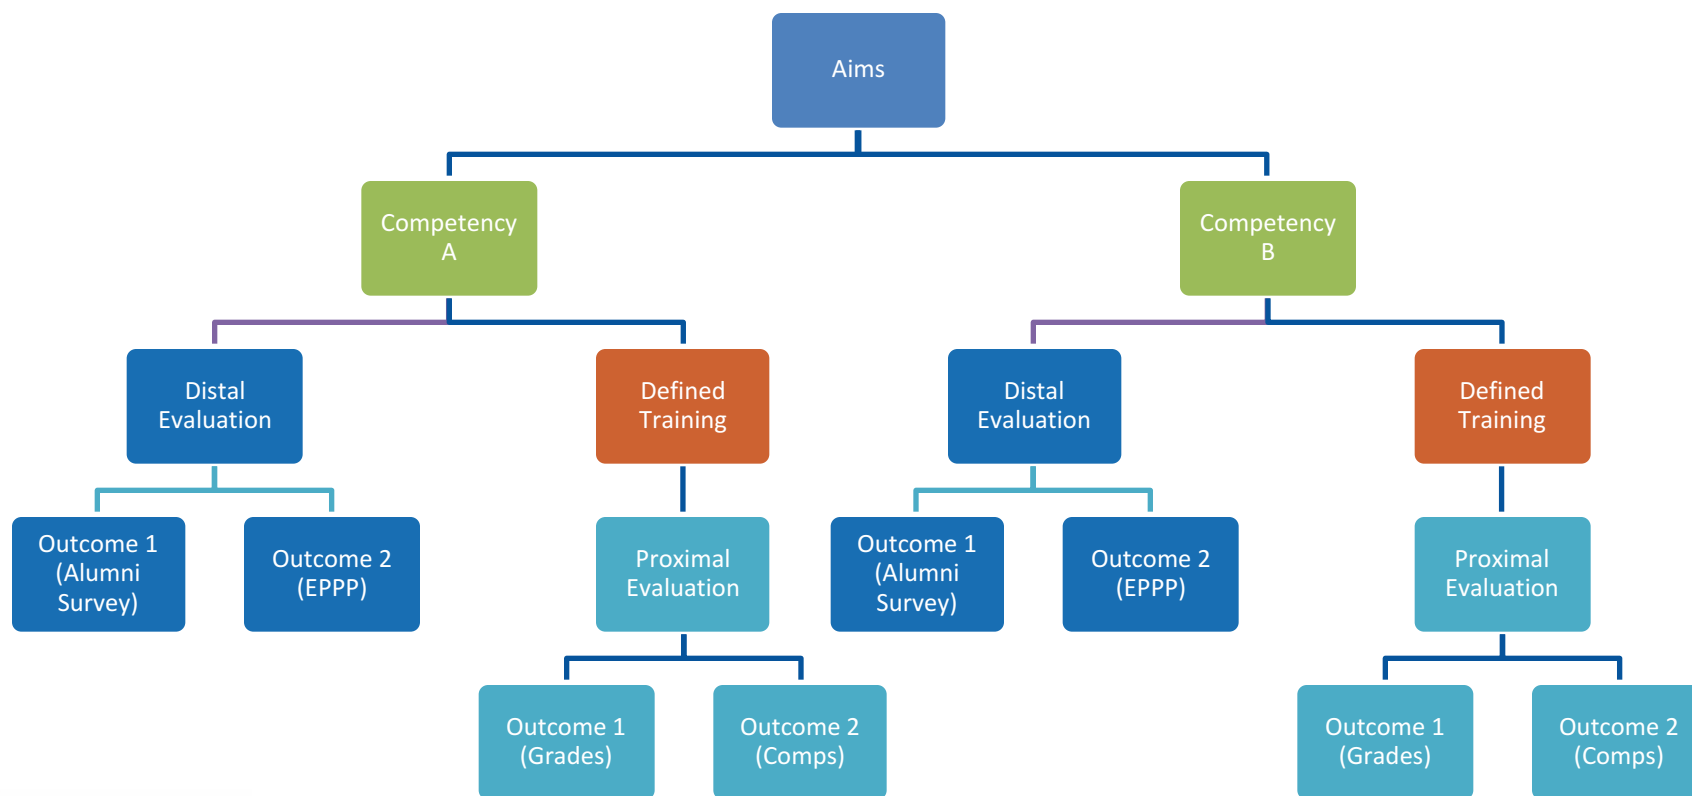

### Describing Aims, Competencies, and Outcomes

## II: Aims, Competencies, Training, and Outcomes

### Describing Aims, Competencies, and Outcomes

# Small Group Discussions

- How do you envision your program ensuring students attain the Profession Wide Competencies?
- What Program Specific Competencies do you expect to require of students?
  - How will you measure these?

# In Development – Implementing Regulations (IRs)

Currently available for Public Comment

- Proximal and Distal Outcome Data (for all levels)
- Disclosure information (Internship and Postdoctoral Residency)

# Transition Expectations for Programs

- All programs must transition to SoA by:  
**January 1, 2017**
- Includes all aspects of SoA including:
  - Aims
  - Discipline Specific Knowledge
  - Profession Wide Competencies
  - Annual Report Online information

# SoA Implementation – Training Plans

- Continue trainings on self-study preparation and site visitor training
- Methods of training
  - In person at constituent meetings and APA convention
  - Webinar-style trainings
  - Online courses as resources
- Information on sessions available on the Accreditation website

### News and Announcements

- [Transition to SoA](#)  
A comprehensive overview of the new SoA, AOP and Implementing Regulations.
- [CoA Update](#)  
A quarterly newsletter, provides the latest news from the commission.

# Summary of CoA's Plans for SoA Implementation – 2016

- Consultation
  - Office staff available to respond to questions
- Website resources
  - Documents for the transition are available online
  - Supporting documents available – SoA, Revisions to AOP and IR (Section C)
  - Revised Self-study Instructions – available in February for all programs with September 1, 2016 submission dates
- Training
  - Face-to-face at Training Council meetings
  - Online planned in synchronous and asynchronous formats

# CoA Portal

## Welcome to the CoA Portal

The APA Commission on Accreditation (APA CoA) is recognized by both the secretary of the U.S. Department of Education and the Council for Higher Education Accreditation (CHEA) as the national accrediting authority for professional education and training in psychology. APA CoA accredits doctoral graduate programs in clinical, counseling, and school psychology and programs offering combinations of two or more of these areas; internship programs in professional psychology; and postdoctoral residency programs that provide education and training in preparation for professional practice. The CoA Portal is the online information system that programs, site visitors, and APA CoA members use throughout the accreditation process. Users are granted access to different information based on their role and stage of the accreditation process.

Please email the APA Office of Program Consultation and Accreditation for assistance accessing the site.

# CoA Portal

- Self-study (SS) online submission module
  - Beta tested with internship and postdoctoral programs
  - Now operational
    - Currently used for programs seeking reaccreditation
    - Required for all programs with **2017** site visits
  - Video-recorded training sessions and user materials available online

# CoA Portal

- Site visitor registration
  - Site is now open for updates
  - User IDs and passwords are available from the office
